Global Blockchain Technologies Corp's (CNSX:BLOC) boss, Shidan Gouran, has been invited to speak at news agency Bloomberg's event, "The Future of Crowdfunding".

The event will consist of twelve sessions that will address several different angles of crowdfunding, such as how it is approached in specific fields and considerations relating to the practice of crowdfunding in general.

In his session, Gouran will discuss existing use cases of blockchain and cryptocurrencies in crowdfunding, and what use cases are on the horizon in the coming years.

"Crowdfunding is something that will change the world; it will empower the public to fund start-ups and causes that they believe in, as opposed to the way it currently is, with funding control being had mainly by investment banks, venture capitalists and angel investors," claimed Gouran.

"These values run parallel to the thinking behind blockchain, which similarly seeks to distribute power in a decentralized manner," he added.
