intelliHR Holdings takes rapid customer growth story on US institutional roadshow

intelliHR Holdings Ltd (ASX:IHR) has released a powerpoint presentation that it will be using for an investor roadshow in the US.

This comes after earlier in the week intelliHR revealed that recent customer wins would see contracted headcount now exceeding the significant milestone of 5,000 paying users.

intelliHR has developed a human resources (HR) software platform that automates manual HR processes and captures and analyses data.

intelliHR posted its strongest quarter of contracted headcount growth in its history with its first quarter 2019 results by adding 1,460 contracted users.

Demonstrating continued fast scaling growth and its international potential, intelliHR has also extended on securing its first international customers in New Zealand, by adding its first US-based customer.

READ: intelliHR Holdings continues growth, now with 35 paying customers

Now established, intelliHR has a clear strategy to expand growth on its investment into customer acquisition, which accounts for marketing lead generation and customer winning activities.

intelliHR's offering is being validated by its clients who are seeing returns from investment in the software.

Fujitsu General Australia's Sarah Gatehouse recently spoke at the HRD HR Tech Summit explaining in 2016 they rolled out intelliHR and in 2017 recorded their best financial year to date.
